

## **Call for Technologies**

for the Environmental Technology Expo at the EPA Science Forum 2008 May 20-22, 2008

## **Abstract Submission Data Fields**

Technology abstracts must be submitted via the Science Forum's online abstract submission system: <a href="http://www.meetingassistant2.com/EPASF2008/">http://www.meetingassistant2.com/EPASF2008/</a>. Users can log in to enter an abstract and draft entries can be accessed and edited at any point until the user finalizes and submits the abstract.

Required fields are marked with an asterisk (\*).

Technology Name\*:

Primary Technical Point of Contact: The person designated as the primary technical point of contact will be the person who receives the acceptance/rejection notification, all technology expo guidance and reminders. In addition, this person's contact information will appear in the abstract.

First Name\*:
Last Name\*:
Job Title\*:
Organization Name\*:
Address 1\*:
Address 2:
City\*:
State\*:
Country\*:
Zip Code\*:
Office Phone Number\*:
E-Mail Address\*:

Abstract authors in order of preferred citation\*:

Include first name, last name and organization/company for each author.

Three Key Words/Phrases\*:

- (1)
- (2)
- (3)

## Technology Description\*:

Provide a brief description (250 words or less) of your technology including:

- The environmental benefit of the technology
- The expected outcomes
- Partnerships in development or verification of the technology

Select the most appropriate category or categories for your technology\*:

Decision support tool
Modeling system
Mobile monitoring unit
Mobile remediation unit
Other (not listed above)
,

## **EPA Involvement:**

If you are not an EPA employee, please indicate EPA's involvement in the funding, development, verification, etc. of your technology. Provide the name of the EPA office or program involved and an EPA point of contact if possible.

What is the approximate size of your technology display (width, length, and height)?\*

Provide a brief physical description of your technology display (computer and monitor, table mounted apparatus, etc.). \*

What other resources will be necessary for your technology display (6' table, poster board, wireless Internet access, power outlets, water, outside location, etc.)? \*

Due to tight security at the Ronald Reagan Building, materials cannot be shipped directly the event location. SAIC will arrange for a drayage company to which exhibitors can ship their technology display equipment and materials. Exhibitors are responsible all transportation and shipping costs. If you plan to ship your display and materials to the drayage company, what is the approximate weight of your display and equipment?
